Great! Could you or Christine also relay to folks how you want to handle people plus? During the cool floods people tracked and finance allocated to site specific code...don't know how well that worked (think ok?) but I believe that is totally up to you if you want to keep or change! Cheers, G

Overtime only. I've confirmed this with David and have asked Christine to convey the message at tomorrow morning's OPS call.

Also, Judy Hansen should be setting up site codes in PPL for everyone who are both deployed to Durango and working out of the REOC.

Hi Joe,

Question I meant to ask earlier – we cannot allocate comp time to a specific site code, can we? Wanted to confirm whether folks working this site have to charge OT...I think that is the case but am not 100% certain. Thanks!
